_____

CONTRACT HAS BEEN EXTENDED THROUGH 9/30/2001.

This is a multiple award contract. See also pricing and delivery for the following contracts: MA-958 Netscape communications and MA-960 Information Technology International Inc.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing.

WARRANTY (INCLUDING YEAR 2000)

NetDynamics has taken exception to the State's Warranty including Year 2000 clause. User agencies are highly recommended to verify that all software purchases are, in fact, Year 2000 compatible.

NETDYNAMICS WARRANTY & YEAR 2000 STATEMENT

NetDynamics warrants for User's sole benefit for a period of ninety (90) days from the date of the delivery of the Software (the "Warranty Period"): (a) that the media on which the Software was delivered, if provided by NetDynamics, will be free rom defects in material and workmanship; (b) that the Software will function substantially in accordance with the specifications in the applicable documentation in effect when the Software is delivered; and (c) that the Software documentation shall be accurate in all material respects and shall be free of any willfully introduced computer virus or any other similar harmful, malicious or hidden program or data including without limitation, any hardware or software device or code which shall prevent User from accessing or using the Program or any portion thereof.

The Software includes design and performance so User will not experience abnormal ending or invalid or incorrect results from the Software associated with the calendar year 2000 ("Year 2000 Compliance"). Year 2000 Compliance shall include, without limitation, date data century recognition, calculations that accommodate same-century and multi-century formulas and date values, and date data interface values that reflect the century. Notwithstanding the foregoing, NetDynamics shall not be responsible in any way for the use of the Software with other software products that are not Year 2000 Compliant.
